The deadline for submissions is **1 August 2011**. For submission of (full) papers, please visit www.CESifo.de. Go to the Forthcoming Conferences page, click on the conference name and then on the “Submit Paper” link below the conference description. Only online submissions are accepted. A selection of conference papers will be published in the *CESifo Economic Studies*, subject to a refereeing process. Submission to the conference implies a commitment to submit the paper to the journal, in case the paper is accepted to the conference. It is not permitted to submit to the conference a paper that is published or forthcoming or in refereeing process. Papers that are submitted to the conference must not be submitted for publication elsewhere, apart from working paper series, while being considered as submission to the conference.

CESifo will provide accommodation and reimburse economy travel costs for researchers presenting an accepted paper. Others are invited to attend, but are expected to provide their own funding for travel and accommodation.

Further questions regarding the scientific content of the conference should be addressed to Dominique Demougin, Department of Law, Governance & Economics, EBS (dominique.demougin@ebs.edu) or Bruno Deffains, University Paris 2 – Sorbonne Universities ([bruno.deffains @u-paris2.fr](mailto:bruno.deffains@u-paris2.fr))

Information about the journal *CESifo Economic Studies*: With the increasing specialisation in the profession, there is an urgent need for building bridges between the different areas in economics. The economic research papers published in academic journals are becoming increasingly less accessible to those not working in the same field. *CESifo Economic Studies*, published by Oxford University Press on behalf of CESifo, aims to bridge the gap between specialised research in economics and the interest of non-specialists. The journal combines theory and empirical research with a strong emphasis on policy issues. *CESifo Economic Studies* publishes contributed papers by top level academic economists which are written in a style accessible to all economists regardless of their specialization. The primary focus of the journal is on policy problems, but it also publishes high quality, non-technical articles which are of general interest to economists.

The journal is circulated among a wide audience including government, business, and policy-makers as well as academics and students. All articles appearing in the journal are thoroughly refereed. For more information see: <http://cesifo.oxfordjournals.org/>
