

**CESifo / SP-SP Center, IESE Conference on  
“Complementarities and Information”  
IESE, Barcelona, June 15-16 2007**

**CALL FOR PAPERS**

Deadline for abstracts: January 15, 2007

Deadline for complete papers: March 1, 2007

The SP-SP Center of IESE and CESifo will organize a conference on recent contributions to the analysis of complementarities and information. The conference will take place on **15 -16 June 2007** at the IESE Business School in Barcelona. The conference aims at bringing together both recent theoretical developments and empirical analysis with applications ranging from international finance (exchange rate crises), monetary policy (transparency), macroeconomics (coordination problems), banking (crises), market microstructure (asset pricing) to industrial organization (mergers).

The Editors of the Journal of the European Economic Association (JEEA) have agreed to publish a symposium issue based on the conference. The Symposium Editors and conference organizers will be Douglas Gale (New York University) and Xavier Vives (IESE and ICREA-UPF). Any papers that are submitted will go through the normal refereeing process and therefore publication is not guaranteed but processing will be fast. We aim to have the process completed by October 2007. There will be significant externalities from publishing in the Symposium Issue and hope that you will consider submitting your paper.

CESifo and IESE will provide accommodation, and reimburse economy travel costs for authors of accepted papers as well as discussants.

Submissions should be sent by email to:

Lidia Pradas  
Manager  
Public-Private Sector Research Center (SP-SP)  
IESE, University of Navarra  
Av. Pearson, 21  
08034 Barcelona, Spain
