

World Investment Report 2010 Launch at the Ifo Institute

The United Nations Conference on Trade and Development (**UNCTAD**) will launch its **20th World Investment Report (WIR)** at the Ifo Institute in Munich on Thursday, 22 July 2010, from 11:00 to 12:30 hrs.

The World Investment Report 2010 presents the latest data on foreign direct investment (FDI) around the world. It also traces global and regional trends in investment and international production by transnational corporations (TNCs). This year's World Investment Report puts a special focus on climate change mitigation and the emerging TNC-Development paradigm. How have FDI flows reacted? How have national and international policies related to FDI changed? Which of the largest TNCs are potential winners and losers in the major industrial restructuring introduced by climate change?

The Statistical Annex provides data on FDI flows and stocks for more than 200 economies, as well as information on the world's largest TNCs.

You are herewith cordially invited to attend the official launch of the Report on **22 July 2010, at 11:00 hrs at the Ifo Institute for Economic Research, Poschingerstr. 5, 81679 Munich.**
